- ▶ **Service** — All services performed by Essilor Instruments certified technicians

Edging Systems for the Office

DELTA 200 DELTA 300

Your workshop concentrated in this all-in-one station

- Profit from a compact, high-performance system that covers all the essentials
- No compromise on the aesthetic results
- Manage all tasks using an all-in-one high-performance display

NEKSIQ™

Race through your workloads

- Mid-range robust edging system
- With or without drilling
- Automatic or manual blocking
- Simple, reliable, and highly-affordable

KAPPA SPECIAL EDITION

The next-generation KAPPA and more

- Base curve coverage to 8, with adjustable bevel height, width and location
- High-quality finished jobs and reduced re-dos
- Greater variety of glasses dispensed via in-house edging

Mr Orange®

A perfect balance of speed and performance

- Wide array of functions guarantees top-quality results
- Automatic or manual blocking
- Fit-4-Frame technology; Full High Curve
- User-friendly with icons

Mr Blue® 2.0

Give your talent the tools it deserves

- Cutting-edge innovation
- Fit-4-Frame technology; Full High Curve; Step bevel
- M'Eye Sign personalized engraving; M'Fit custom shapes
- Milling option

Mr Blue® 2.0 SUN & SPORT EDITION

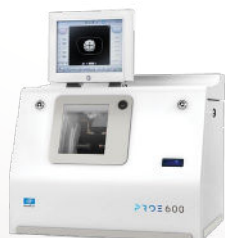

Mr. Blue 2.0 with exclusive new features for outdoor activities

- Chemistrie™ clips production as custom-made sunwear
- Half Jacket frame coverage for endurance and extreme sports

Edging Systems for the High-Volume Lab

PROE™ 600

Edge ahead without compromise

- Innovative high-volume edger that offers compact design and high productivity
- Combines top-end precision and versatility with robustness and speed
- Easy and cost-effective integration into any lab configuration
- Perfect for growing labs

PROE™ 700

Compact edger with extended versatility

- Builds on the design of PRO-E 600
- A fully-optimized process with advanced features: Engraving, Half Jacket wraps, Chemistrie clips, super chamfering, and creative shapes

Here's What Our Customers Are Saying About Us

“ I wouldn't buy anything else! Incredible accuracy, **Mr. Blue® 2.0** is very easy to use. It cuts your production time to under five minutes. I had the Mr. Blue for seven years before getting the Mr. Blue 2.0 and have loved it. The 2.0 added a great feature — following the bevel on a wrap frame in the shelf bevel mode. An unlimited number of jobs can be saved making it very easy to pull up an old job and recut it without the frame. Also, very important is the tech support. They value your time and quickly respond when you have questions. ”

Belchertown Eyecare, Belchertown, MA

“ We have thoroughly enjoyed our Auto Orange (**Mr. Orange®** edger with **Mr. Blue** Tracer). They are easy to operate, and our technicians master them fairly quickly. Our Essilor Instruments sales manager was and is very supportive to our needs, concerns, and questions. We have not had a need for technical assistance, but we are comfortable with knowing they probably will be there if the need should arise. Great job to Essilor Instruments for creating the equipment that offers valuable rewards and returns. Our in-house lab has been a wonderful asset for our bottom line but more importantly, it has improved our patient satisfaction immensely! Thank you! ”

The Optical Shop of WA Inc., Shelton, WA

“ The **Neksia™** has completely changed the way our lab operates. The speed and efficiency of the Neksia system has allowed us to double our lab's output. The Essilor team that installed the Neksia was second to none. They had the unit installed and had us completely trained in just a few hours. This speaks to the knowledge of the sales manager and also to the ease of the Neksia system. ”

Practice Manager, Alma, GA

“ The versatility of the **PRO-E™ 600** allows us to produce high volumes of work when needed and the ability to do specialized high wrap and difficult Rx's with ease. With the limited amount of daily maintenance needed, your staff can concentrate on producing the quality work your ECPs have come to expect. ”

Southern Optical, Morrisville, NC
