## EDGING FUNCTIONS

Standard and Advanced Finishing

## 3 BEVEL. FLAT EDGE. POLISHING

## CONFIGURATION

- 0.75 mm bevel height
- 3 wheels set for all plastic materials
- 4 wheels set for all materials including mineral
- 15, 19, 22 mm wheel widths for different lens thicknesses
- Round-edge roughing wheel for securing highcurve lens

## DURABLE LIFE TIME

- 155 diameter wheel
- Lens swapping on roughing wheel
- Automatic cleaning of polishing wheel

## MAINTENANCE

- Easy replacement depending on the model Available with Mr Blue, Mr Orange, and the Pro-E series.
- Easy size adjustment

Refer to your technician for additional information

Available on all edgers
3 wheels set: Neksia 550, Pro-ETM 600, Pro-E 700 3 or 4 whels set: NeksiaTM 400 Neksia 500 Mr Orange® Mr Blue ${ }^{\text {® }}$ 2.0, Mr Blue Sun \& Sport

## MINI-BEVEL

- Aesthetically-pleasing thin frame fitting
- Mini bevel height: from 0.30 mm to 0.75 mm
- Easy bevel configuration directly on the main screen

Available on Mr Orange, Mr Blue 2.0, Mr. Blue Sun \& Sport, Pro-E 600, Pro-E 700

## DRILLING

- Integrated drilling function for perfect positioning
- Hole, slot, notch, non-through drilling
- 2 drill bit sizes (0.8 and 1.0) for durability and speed
- Holes from 0.8 mm to 3.0 mm
- Holes quantity up to 20
- Slot and notch width up to 5 mm
- Slot and notch angle position from 0 to 90 degrees
- Automatic and adjustable tilt angle from front and
 Available on rear lens face
- Hole size compensation according to the tool wear

Tilt $15^{\circ}$ : Neksia D nit 0-30\%: Mr Orange, Mr Blue 2.0, Mr Blue Sun \& Sport, Pro-E 600, Pro-E 700

## EDGING FUNCTIONS

Standard and Advanced Finishing

## (3) GROOVING

- Integrated grooving function
- Grooving wheel design to secure the groove width stability regardless of the lens curve
- Adjustable width from 0.6 mm to 1.2 mm
- Adjustable depth from 0.2 mm to 1.2 mm

Grooving wheels

Available on all edgers Tilt $15^{\circ}$ : Neksia ${ }^{\text {TM }} \mathrm{D}$
Tilt up to $30^{\circ}$ : Mr Orange ${ }^{\oplus}$, Mr Blue ${ }^{\oplus}$ 2.0, Mr Blue Sun \& Sport, Pro-E ETM 600, Pro-E 700

## CHAMFERING

- Integrated chamfering function
- Unique Essilor patent with flexible wheel
- Perfect follow-up of the lens curvature
- Consistent chamfer width all around the lens
- Front and back
- Adjustable width
- Standard width: thin ( 0.2 mm ) and large ( 0.4 mm )

Chamfering wheel mounted
on flexible component
Available on all edgers Tilt $15^{\circ}$ : Neksia D Tilt up to 30 : Mr Orange, Mr Blue 2.0, Mr Blue Sun \& Sport, Pro-E 600, Pro-E 700

## (3)3 MIXED FINISHING

- Specific frame design
- Combination of 3 different types (groove-bevel-flat edge)
- Finishing type with any design (bevelbevel, groove-groove, groove-flat edge, etc.)
- Configurable sector
- Automatic and aesthetically-pleasing merge between sectors

Available on Mr Orange, Mr Blue 2.0, Mr Blue Sun \& Sport, Pro-E 600, Pro-E 700

## 21) CUSTOMIZED FINISHING

- Complete adaptability of bevel and groove positions
- Position in the lens thickness (front and rear surface tracking, distributed and/or position percentage)
- Frame rim or lens curve tracking
- Curve modification (general or at a particular point)

- Curve displacement

Available on all edgers

## HIGH-CURVE BEVEL

Process lenses for wrap-around frames with an optimized bevel design for a perfect fit

- Binocular 3-D tracing of full-rim frames (tracer function)
- Automatic adjustment of centering data based on 3-D parameters of the frame
- Adjustment of high-curve bevel height on 4 to 8 points
- Automatic frame trajectory follow-up to harmonize as best as possible
the lens base, frame base and shape (only available on Mr Blue 2.0 and Mr Blue Sun \& Sport)

Cross-sectional view of a high-base bevel
1: Value of shelf bevel of rear surface 2: Width of the flat side of the bevel 3: Front surface tracking value

Shape of the bevel (width, height etc.) defined up to 8 locations
(i)

For the quality of the job, the lens base must always match the frame base perfectly.

## ( <br> STEP BEVEL

A step-bevel profile is particularly suited for rimmed sport frames and safety glasses with:

- A deep rectangular frame groove profile
- A frame groove with the back side longer than the front side
 a step bevel
1: Value of shelf bevel of rear surface

Width of the flat side of the beve

Shape of the bevel (width, heigh
etc.) defined up to 8 locations
(i) For the quality of the job, the lens base must always match the frame base perfectly.

Specific Jobs

A unique engraving process, easy-touse and completely integrated in the edging routines. From initials and sports insignia to Chinese calligraphy and more, engrave a range of images and infinite texts

A unique engraving tool, non-invasive for the coating Mr Blue Sun \& Sport, Pro-ETM 700

## CREATIVE SHAPE

This function allows you to create your own shapes:

- Using the pre-cut patterns
- Modifying the available forms
- Creating your own patterns

The colors symbolize the various tools that will be used to machine the shape:
$\square$ Mill bit High-base wheel $\square$ Large wheel

Mr Blue 2.0, Mr Blue Sun \& Sport, Pro-ETM 700

This function helps to obtain an aesthetically-pleasing and safe mounting in the case of a negative thick lens edge, due to the super chamfering wheel.

The answer to a 'thick' lens edge that brings attractiveness and safety

Super chamfer wheel

## - <br> CHEMISTRIE ${ }^{\text {TM }}$

- A technology that attaches sun/ reader/3D/blue-cut lenses to any prescription eyewear using magnets embedded in the lenses
- Designed to be lightweight with a dedicated triacetate lens
- Lenses are available in multiple base curves to fit virtually any frame curve

Starter kit compositionHALF JACKET ${ }^{\circ}$

The Half Jacket endurance sport frame requires partia step beveling to fit into a portion of the frame and protrusions on the lens to hook
 into indentations in the frame groove

- Advanced optical tracing of the external shape to detect protrusions of the demo lens (tracer)
- Assisted design of the step bevel shape with a touch screen (edger)
- Completed job saved in Essibox for future use

Optical tracing with protrusions detections

Define the partial step bevel

Available on Mr Blue Sun \& Sport and Pro-E 700

## Edgers designed to meet lab expectations

PRO-E ${ }^{T M} 600$

VERSATILITY

- All types of mountings and finishing
- All materials except glass

## PRODUCTIVITY

- Productivity gain: Up to $50 \%{ }^{1}$
- Groove: 3X faster ${ }^{1}$
- Drill 4 holes: 2X faster ${ }^{1}$
- Dry milling to secure hydrophobic lenses as fast as roughing wheels cycles²
- Start/stop mechanical button and bar code scanner embedded

## PRECISION

- Top-end edger precision
- Advanced processes to enable faultless sizing, axis control and attractive mountings

## EASY INTEGRATION

- Compact tabletop format
- No need for compressed air
- Intuitive and user-friendly MMI
- Large range of configurations

## ROBUSTNESS

- Specific durable tools
- Easy and fast maintenance processes

- Need Essibox ${ }^{\oplus}$ solution

## PRO-E SERIES

Edgers designed to meet lab expectations of high productivity and uncompromising quality

PLAY COMPENSATION SYSTEM Electro-mechanical system to eradicate all plays in the lens rotation system to ensure perfect drilled shapes

STRAIN GAUGE All edging efforts on the lens constantly measured to optimize the cycle time without compromise on the axis deviation

TEMPERATURE COMPENSATED REPRODUCER

Lens sizing mastered regardless of the edging volume

DESIGNED FOR PRODUCTIVITY

Edgers optimized for high precision and versatility

MR BLUE ${ }^{\circ}$ SUN \& SPORT

MR BLUE 2.0

MR ORANGE ${ }^{\circ}$

Chemistrie ${ }^{\text {TM }}$

Real-time process of cutting force for optimized cycle time and high precision

Half Jacket ${ }^{\circledR}$

Integrated module with 3 removable spindles: Groove-Milling, High Curve-Chamfer and
Drilling

Integrated module with 2 removable spindles: High Curve-Chamfer-Groove and Drilling

The efficient edging solutions for the daily workflow

EASIER WORKING PROCESS

Specific new wheels set for high-curve lens
-8.4-inch user-friendly touchscreen

- Fast-access settings
- 1,000-job database

EXPERIENCE WORKFLOW EFFICIENCY

- Fast, easy and extended frame tracing
- Automatic drilling-hole recognition
- Convenient centering and blocking

## ACHIEVE HIGH PERFORMANCE

- Improved axis accuracy
- Best automatic cycles

Polishing

N三KSIA 600 N三KSIA 650

- Patented flexible chamfering wheel

Drilling Tilt 0-15

High-Curve Bevel

Chamfering

Polishing

Flat-edge Finish

All your workshop concentrated in this all－in－one station

PROFIT FROM A COMPACT． HIGH－PERFORMANCE SYSTEM
THAT COVERS ALL THE ESSENTIALS
－Tracing of all types of lenses including demo lenses and recut lenses
－Centering and blocking of all kinds of corrective lenses including recut lenses
－Edging of all types of materials up to base 6 including hydrophobic lenses

NO COMPROMISE
ON THE AESTHETIC RESULTS
－Advanced bevel and grooving placement features with the ideal bevel position
－Automatic setting of the grooving／drilling angle according to the lens curve up to $15^{\circ}$

MANAGE ALL TASKS USING AN ALL－IN ONE HIGH－PERFORMANCE DISPLAY
－Natural posture reducing muscle stress
－No need to move from one piece of equipment to another

## CONNECT YOUR DELTA WHEN NEEDED

For very special frames or for remote edging services，Delta can be connected：

DELTA with a trace from TESS family

DミレTA 300

Complete range to meet all the professionnal needs

*Lifetime: more than 100,000 jobs

The connectivity solution to increase the lab efficiency

Essibox connects multiple devices and centralizes all data flows for higher lab efficiency and lower errors. Designed around an open communication system, it is an upgradable solution that enables the addition of new functions and services to improve the configuration and profitability.

## CREATION OF PERSONALIZED SHAPES AND DRILLING PATTERNS

- Shape- and drilling-creation module
- A user-friendly design based on the underlying principles used for computer-aided design software

## UNLIMITED STORAGE CAPACITY AND INTEGRATED DATABASE

Create an unlimited archive of shapes and drilling models with easy management of the libraries:

- Multi-criteria searches (search by manufacturer, by collection or by model)
- Immediate visualization of the shape and related drilling pattern

## JOB MANAGEMENT AND LMS (LAB MANAGEMENT SOFTWARE) CONNECTION

- Automatic data transfer (shape, prescription, height, PD, lens type, etc.) to the centering and edging system with barcodes
- Visualization and management of all jobs and their states of progress
- Full integration within the lab and/or storage network for easy and quick access

## MULTI-SITE

Centralized workshop and/or job transfer between shops:

- Delegation for capability needs
- Delegation for functionality needs (creative shape, etc.).
- Delegation for availability

## LENSMETERS

Simple and reliable measurement

EXTENDED MEASURING CAPACITIES
Lens support adapted to all lenses, frame curves and high base curves. The wide space under the base allows excellent positioning of frame temples.

## UV TRANSMISSION

Measurement of lens power and UV transmission are simultaneously carried out and displayed on the main screen

INTER-PUPILLARY DISTANCE
An exclusive design featuring two nose supports makes operations simple and efficient.

ALM 500

Green light beam
Automatic detection of lens type

## Printer
