

MASTER YOUR EDGING AND REVEAL YOUR CREATIVITY

NEW ES 700/M AND ES 800/M AUTO EDGING SYSTEMS

ES 700 / ES 700M

TCB 800

ES 800 / ES 800M

ES 700 is a compact and user-friendly in-office edging system, composed of the ES 700 edger and TCB 800 automatic tracer-centerer-blocker. ES 700M, a hybrid version with a dual technology that combines milling and grinding, is capable of securing hydrophobic or delicate lenses, reducing the smell for mid- and high-index materials, and diminishing lens swarf as well as water consumption.

ES 800 is the perfect solution to demonstrate your craftsmanship and reinforce your expertise. ES 800M has a dual technology that combines milling and grinding. With the M'EYE CUSTOM web app, inspire customers with unique personalized eyewear styles.

INTRODUCTORY PRICING

Receive a demonstration at the EssilorLuxottica booth #**P12087** and get the show-special pricing with your purchase of an ES 700/M or ES 800/M edging system.
