

The all-new Reichert® Tono-Vera® Tonometer is now available from [DEALER NAME], offering truly objective tonometry with a refined rebound tonometer experience!

Tono-Vera is an innovative and thoughtfully designed handheld tonometer featuring the advanced, patented ActiView™ Positioning System, a full-color view of the eye combined with an interactive user interface, which quickly guides you to the apex of the cornea and automatically measures when aligned. This means Tono-Vera provides you with objective and repeatable results in as few as three measurements, without the need for topical anesthetic. Tono-Vera gives you more confidence in your IOP measurements and a more efficient exam workflow.
