

## DISCOVER A NEW PARADIGM IN LIGHT THERAPY: EPI-C PLUS®

Featuring both **Light Modulation® LLLT** and **Optimal Power Energy® IPL technologies**, to deliver effective, painless care to maximize patient satisfaction and elevate your practice revenue.

“ I consider EPI-C PLUS a “next-generation” light therapy system since it doesn’t require coupling gel to conduct the electrical transmission to the skin. I also like the fact that I can treat more skin types with this IPL system and the addition of LLLT enhances the effects via a synergistic light therapy. ”

- Dr. Paul Karpecki, Director of Cornea and External Disease, Kentucky Eye Institute
